

## 8<sup>th</sup> Grade Final Project

This final performance project may be created in groups containing between 1 and 5 members.

### Two versions are possible:

Version 1:

- Section A – rhythm track
- Section B – chords
- Section C – students' choice

Version 2:

- Section A – rhythm track with chords
- Section B – students' choice
- Section C – students' choice

The **rhythm track must be written out**, and students must do their best to play what they write down. Students may use any instrument in the room for performance. Students may have to share and cooperate for use of an instrument in rehearsal.

### Rubric

**100-90** – (1) Our piece was in three different parts, **everyone played in two parts**; (2) We used **at least two chords**; (3) We used a **written score** for one part; (4) We took our performance seriously and played for **at least 2 minutes**.

**89-80** – We have done two of the three above.

**79-70** – We have done one of the three above.

**69-0** – We have done none of the above.

### In Case of Non-Participating Member

If Mr. Cole receives a complaint about a member of the group from **all** the other members, that member will be given the option to either cooperate or leave the group and create a solo project. If Mr. Cole is asked to speak to the group member a second time, that member will automatically be required to create a solo project.
